DATA MANAGEMENT
+ UNLIMITED CONNECTIVITY

 **TOPCON**
HARMONY RS

Data Management + Communication. Simplified.

Solve your data management and communication challenges with the next-generation software application, Topcon Harmony Referral System (Harmony RS). Harmony allows you to connect all of your diagnostic instruments, regardless of manufacturer, in one secure, web-based platform, while supporting both Artificial Intelligence integrations and telemedicine.

Minimize Errors & Save Time

With Harmony's integrated workflow, patient information flows seamlessly from an EMR directly to the device, through Harmony and back, reducing human errors and reducing time spent entering patient information at the instrument.

Unlimited Device Connections & Reduced Costs

Harmony supports connectivity to a variety of instruments, regardless of device type and brand, allowing you to centrally view relevant data on a single screen and eliminating the need for third party softwares.

Harmony Referral System improves the management of your patient exam data by allowing you faster access, seamless EMR integrations and connection to every instrument in your practice.

FEATURES AT A GLANCE

Connects with any device, regardless of device type and brand – DICOM or not.

Entire software package can be hosted in our secure cloud or on site.

Browser-based applications allows fast access to all patient exam data from any computer, at any time.

Secure medical grade storage system where all data is encrypted and backed-up.

Worklist manager eliminates time spent entering patient information at the instrument.

Customisable reporting tool that enables reports supporting your clinical analytics

Easy to use. Quickly scroll through your OCT, Fundus and other images.

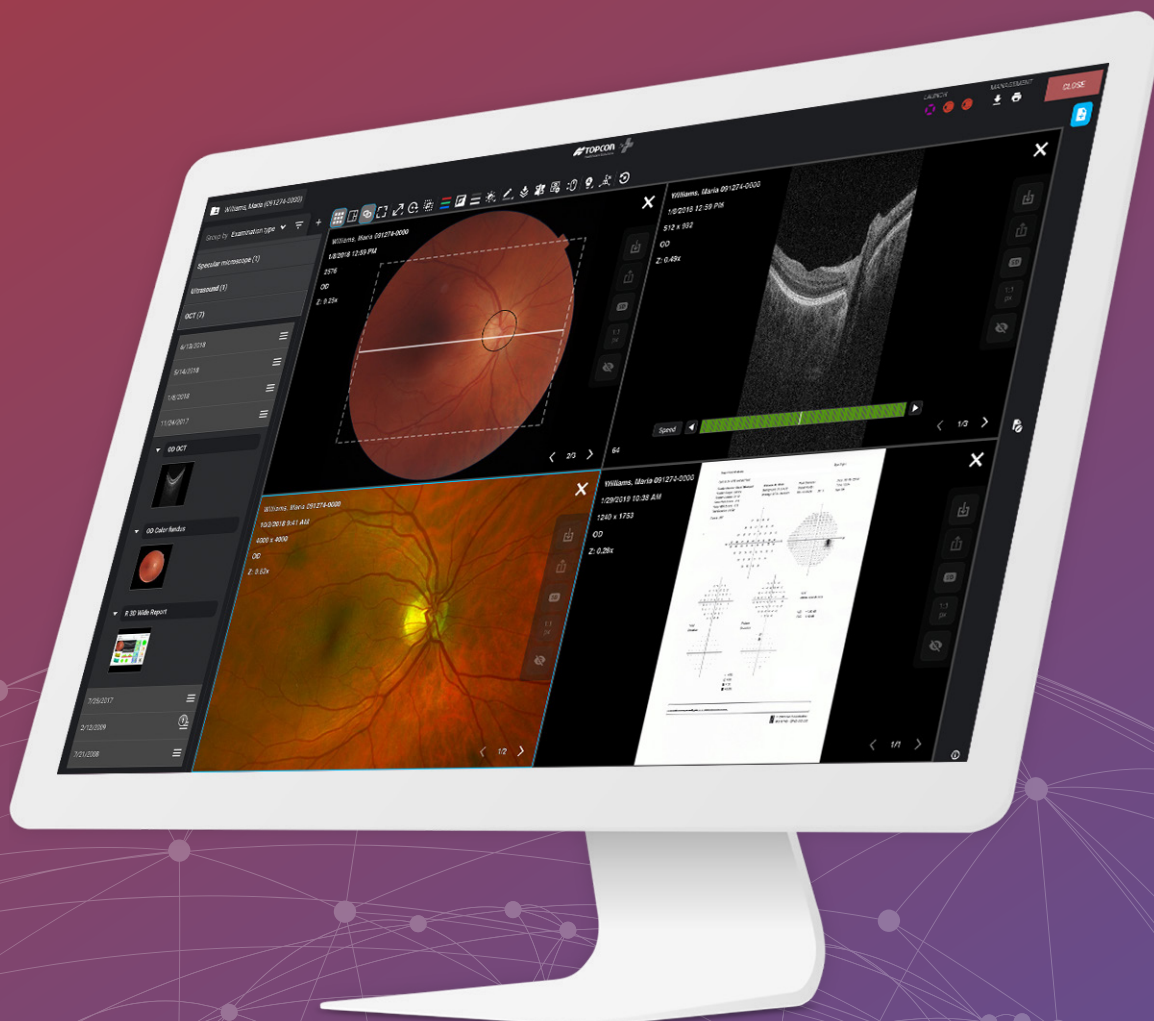

Secure telemedicine portal for 2nd opinions and referrals. Accessible by accredited specialists at any time or anywhere.

Artificial Intelligence (AI) integrations. AI software may help early detection and accurate diagnosis in a fast and secure manner.
