# INTRODUCTION

Youths today are the catalyst for nations' transformation. Capacity and character-building programmes are badly needed for youths to contribute to the strength of the Ummah in the 21st century as it faces many challenges. Youth programmes in Muslim countries are the real reflection and manifestation of the future of the ummah.

International Islamic University Malaysia (IIUM) is instrumental in enhancing global networking and particularly in relation to Muslim youths and their impact to their respective countries' development.

IIUM had already organized several international youth events in the past, in collaboration with various organisations and agencies. This year it continues its commitment in organizing an "International Conference of Muslim Youth Empowerment and Character Building" on 21st -25th October 2019. We invite you to join us in this effort to prepare our youths for a brighter future.
